

most of the time that I have with her at home when I leave work is spent doing her school work. I try to pack food everyday but sometimes I don't have time. Even with me packing, there still should be enough food supply for people who have to be here essentially. I asked the lunch lady what time the cafeteria closes, she instructed me at 8pm. If the cafeteria closes at 8pm why is there no food at 2pm. I was so weak and light-headed I felt I was going to pass out. Thank goodness my coworker was able to get me a cup of noodles from the store outside the cafeteria or I would have starved. I just feel if I have to report to work, at least make sure we have enough food here. This is really unbelievable that staff have to be treated this way. We already don't have anywhere to sit and eat, adding to that having barely any affordable/no food

Thank you,
Sophie

Subject: RE: B1 cafeteria

Sophia,
I oversee all cafeterias, concessions, vending, and retail in all NIH facilities anywhere in the country. Lucky me! ☹️

Regards,
John

Hi Mr. Crawford,

Do you also oversee the B1 cafeteria?

Thank you,

Sophia Grasmeder, RN, BSN
